Rules and Regulations for Paper and Poster Presentations Competition

- Only PG students are eligible for the competition
- Teachers & PhD students can present their paper but will not be considered for competition
- Poster presentation Competition is open to all including Practitioners, UG, PG, Teachers & PhD students
- Candidates who submit full paper with abstract in the prescribed format within due date will only be considered for oral paper presentation
- Only 20 research papers of each theme will be accepted for oral presentation competition i.e. total 80 research papers. Remaining papers will be considered for poster presentation.
- Separate guidelines regarding presentation of poster and paper will be sent on email to the selected participants

Last date of submitting abstract: 5 September 2018
Last date of submitting full paper: 12 September 2018

Important Note:

The full paper submission is mandatory for selection of oral presentation. The full paper should be done according to guidelines given in International Journal of Ayurveda and Alternative Medicine (IJAAM) as follows. For more details please visit the Journal Website http://www.ijaam.org. Candidates who want to publish their papers in IJAAM (Online Peer reviewed, Indexed journal) at discounted price, will have to pay only Rs.500/- extra for each paper.

(Terms and conditions will be subjected to the Journals guidelines)
Prizes for Paper Presentation Competition

1st prize- 15,000/-
2d prize- 10,000/-
3rd prize- 5,000/-

Prizes for Poster Presentation Competition

1st prize- 15,000/-
2d prize- 10,000/-
3rd prize- 5,000/-

3 consolation prizes will be there 1000/- each for both poster and paper presentations.

SCIENTIFIC SESSIONS

There will be 8 Scientific sessions which will run parallel with the conference. The division of scientific sessions will be in accordance with the following 4 themes. E.g. There will be 2 Sessions for Life style Disorders. Only 20 selected papers related to Life style disorders will be selected by Scientific Scrutiny Committee. Same is the case with other 3 themes.

The four themes and their salient features for presentation are as follows

1. Lifestyle disorder:

- Traditional and Integrative approach towards Diagnosis, Management of Lifestyle Disorders like Diabetes, Obesity, Stress, Cardiovascular disorders, Hair and Skin problems etc.
- Pre Clinical, Clinical studies on Life style Disorders
- Case Studies on Life style Disorders
- Literary Review studies on Life style Disorders
- Role of Panchakarma, Swasthyarakshan, Yoga in the management of Life style Disorders
Complication and their management in Life style Disorders

2. Drug research
   - Pharmacokinetics & Pharmacodynamics of Ayurvedic single and compound drugs
     - Standard Operating Procedures of Ayurvedic formulations
     - Novel Dosage Form of Ayurvedic drug formulation
     - Modern Techniques used in the manufacturing and Analysis of Ayurvedic Drugs
     - Raw Material, In Process and Finished Drug Standardization Of Ayurvedic Drugs
     - Regulatory Affairs with Respect to ASU Drugs
     - Pre Clinical studies with respect to Safety and Efficacy of Ayurvedic Drugs
     - Pharmacovigillance of Ayurvedic Drugs
     - Literary review studies with respect to ASU Drugs

3. Traditional and Modern Surgical Integration
   - Review studies on samhitokta (Classical) Surgical Methods
   - Ayurvedic Proctology- Tradition and Advancement
   - Agnikarma, Viddha Karma, vranakarma, Jalukavacharan, Anushastra, Ksharkarma
   - Herbal Formulation and Their Mode of application in Ano Rectal Disorders
   - Investigation Modalities useful in Diagnosis of Anorectal Disorders
   - Post operative Management and Dressing
   - Integrative approach towards the management of ENT disorders
   - Netra Upakrama
   - Pre clinical, Clinical and Case studies on Ophthalmic and ENT Disorders
   - Medicolegal aspects of Surgical Interventions
4. Pain Management

- Integrative approach of pain management with different modules like pharmacokinetics and pharmacodynamics of Ayurvedic Pain Killers
- Role of different treatment modalities like Yoga, Panchakarma etc. in the Pain Management
- Case studies, Pre Clinical and Clinical studies in the Pain Management

Guidelines For Abstract Submission

Structured Abstract not more than 300 words Comprising Background of the Study, Aim, Objectives, Results, Conclusion and 4 TO 5 Key words. It should be typed in Times New Roman, font size 12 with 1.5 inch spacing. The title of the paper should be in upper case centred and bold with font size 14.

Guidelines for Poster Presentation

- Dimensions of poster - 36 inches (3 ft.) wide and 48 inches (4 ft.) height.
- Orientation - 'Portrait' position (long dimension is vertical).
- Poster Should be arranged in Standard Research Writing format i.e. in the sequence Introduction, Aim & Objectives, Material & Methods, Result, Conclusion
- Title -Posters should include a title, name and affiliation of the presenter(s) labelled with lettering at least 1” (2.54 cm or 72 point) high from the top of the poster space.
- Text should be concise enough to be read in under 10 minutes and from a distance of 4 feet (about 120 cm).

Use photos, diagrams, graphs or any other artwork as a focal point to attract attention and these should be easily visible from a distance.
- Try to make all illustrations (charts, pies, graphs, etc.) into bold graphic display where text is minimized and symbols are maximized.

Bring yours poster with you on the seminar day.
INSTRUCTIONS FOR AUTHORS (IJAAM GUIDELINES FOR PAPER PUBLICATION)

Title: The Title should be as brief as possible describing the contents of the paper. The Title Page should include the authors' full names and affiliations, the name of the corresponding author along with phone, fax and E-mail information. Present addresses of authors should appear as a footnote.

Abstract: The Abstract which should be included at the beginning of the manuscript should be informative and completely self-explanatory, briefly present the topic, state the scope of the experiments, indicate significant data, and point out major findings and conclusions. The Abstract should not be more than 300 words in length. Complete sentences, active verbs, and the third person should be used, and the abstract should be written in the past tense. Following the abstract, about 3 to 6 key words that will provide indexing references to should be listed.

Key Words: About 3 to 5 key words that will provide indexing references to should be listed.

Abbreviation: Each abbreviation should be spelled out and introduced in parentheses the first time it is used in the text. Only recommended SI units should be used.

Introduction: The Introduction should provide a clear statement of the problem, the relevant literature on the subject, and the proposed approach or solution. It should be understandable to colleagues from a broad range of scientific disciplines.

Materials and methods: Materials and methods should be complete enough to allow experiments to be reproduced. Only truly new procedures should be described in detail; previously published procedures should be cited, and important modifications of published procedures should be mentioned briefly. Subheadings should be used. Methods in general use need not be described in detail.

Results: Results should be presented with clarity and precision. The results should
be written in the past tense when describing findings in the authors' experiments. Previously published findings should be written in the present tense. Results should be explained, but largely without referring to the literature.

**Discussion:** Discussion, speculation and detailed interpretation of data should not be included in the Results. The Discussion should interpret the findings in view of the results obtained in this and in past studies on this topic.

**Conclusions:** State the conclusions in a few sentences at the end of the paper.

**Acknowledgments:** The Acknowledgments of people, grants, funds, etc should be brief.

**Tables:** Tables should be simple and kept to a minimum. Tables should be typed single-spaced throughout, including headings. Tables should be self-explanatory without reference to the text.

**Figure:** Figures on a separate sheet. Graphics should be prepared using applications capable of generating high resolution JPEG or Powerpoint before pasting in the Microsoft Word manuscript file. Tables should be prepared in Microsoft Word. Use Arabic numerals to designate figures and upper case letters for their parts (Fig 1).

**References:**
References should be cited in the article continuously according to appearance in Arabic numerical superscript in square bracket. (not in alphabetical order)

**Book reference:**

**Article reference:**

**Website reference:**

**Ethical Guidelines**

Studies on human beings should indicate whether the procedures followed were in accordance with the ethical standards of the responsible committee on human experimentation (institutional or regional) and with the Helsinki Declaration of 1975, as revised in 2000 ([http://www.wma.net/e/policy/17-c_e.html](http://www.wma.net/e/policy/17-c_e.html)) A statement on ethics committee permission and ethical practices must be included in all research articles under the 'Materials and Methods' section.

Evidence for approval by a local Ethics Committee (for both human as well as animal studies) must be supplied by the authors on demand. The ethical standards of experiments must be in accordance with the guidelines provided by the CPCSEA and World Medical Association Declaration of Helsinki on Ethical Principles for Medical Research Involving Humans for studies involving experimental animals and human beings, respectively). The journal will not consider any paper which is ethically unacceptable.
